Subject: Microsoft Settlement

I am completely in favor of the Microsoft settlement that has been reached between the DOJ, several states and Microsoft, and I urge the Judge in this case to accept those terms, reject the outrageous claims of the states who have refused to settle and close the case in it's entirety.

Please stop your horrendous waste of our tax dollars in harassing and prosecuting one of the most admired companies in America, one that will be a key to getting our economy out of the dumps, and get back to the serious business of pursuing terrorists, murderers, gangsters and others of their ilk. Get back to the real work of serving the people of the United States instead of continuing to waste the taxpayers' money on private vendettas driven by failed competitors of Microsoft and a few Attorneys General who think a tough position on high profile case will help them get national name recognition and either re-election when their terms expire or a nice spot on a national party ticket in the next presidential election.

Thank you.
